

Lumin Wand – Portable & Compact UV Sanitizer

PROVEN SAFE, PROVEN EFFECTIVE

The Lumin Wand is the only disinfecting wand on the market that delivers over 100mJ/cm² of UVC output in under 5 seconds, enough to kill up to 99.9% of bacteria and backed by third party lab testing*. The Lumin Wand puts out 10-20X the strength of other wands and requires the shortest contact time on the market.

KEY SAFETY FEATURES

- Safety Start – Requires the ON/OFF button to be held down continuously for 3 seconds.
- Proximity Sensors – Automatically turns off the light source when the Lumin Wand is lifted higher than 6" from the surface.
- Advanced Sensor Technology – Capable of detecting a user's turn of the wrist and shutting off the light source if a user attempts to turn the device away from a surface, to protect the user.
