

CPAP Accessories

CPAP Holders

CPAP Holders provides a convenient, safe and easily accessible way to enjoy the CPAP machine without sacrificing valuable space on patient's night stand. With the machine resting close to the patient's head it provides optimum hose length and freedom movement, minimizing potential for pulling the machine off the night stand.

Product Specifications

- Saves space on the night stand
- Fits between the mattress and box spring, keeping the CPAP machine out of harms way
- Machine is held in place by a Velcro® strap
- Having machine close to patient's head allows freedom of movement and minimizes potential for pulling machine off night stand
- Elevates machine off the floor to keep machine from attracting impurities, such as carpet fiber and dust
- CPAP Holders fits 99% of all CPAP machines on the market today
- 8" x 12" polymer tray for CPAP machine
- Limited Assembly Required - Assembles within minutes
- Made in the USA
- **Great cash sale and drop ship item!**
