Disinfectant Cleaner

## 1 Minute Kill Time<sup>1</sup>

Kills tested organisms in 30 seconds to 1 minute. Faster kill times mean faster turnovers.

Kills dangerous ESKAPE and ESKAPE MDRO organisms in 1 minute. ESKAPE bacteria are responsible for approximately 2/3 of all HAI's.

**Powerful Scrubbing Wipe**  
Our disinfectant wipes have a powerful scrubbing ability to quickly and effectively clean surfaces, while still being safe on surfaces.

**Broad Spectrum**  
A true broad spectrum disinfectant that is Bactericidal, Fungicidal, Virucidal, and Tuberculocidal.

## Surface Safe

Safe on clinical surfaces such as acrylic, aluminum, brass, copper, stainless steel, chrome, plastics and more. Maintain clear, bright plastics that are typically clouded by high levels of alcohol.
